## **Hunters Woods at Trails Edge Senior Living Community Coming to Reston**

**Reston VA** – Atlantic Realty Companies announces the Grand Opening of their Hunters Woods at Trails Edge Showroom at 2254B Colts Neck Road in Reston, VA. A ribbon cutting ceremony and open house were held on July 24, attended by the project leadership team and local dignitaries. The Hunters Woods at Trails Edge Senior Living Community project is currently under construction at 2222 Colts Neck Road, with delivery expected in spring 2019.

The Hunters Woods at Trails Edge project will replace the former United Christian Parish with 210 units for senior living – 90 designated as independent living, 81 for assisted living, 15 special needs, and 24 assigned to memory care. This state-of-the-art facility will offer residents the broadest continuum of services and care available in the primary market. The senior living community will be managed by Integracare, who operates exceptional senior living communities with an integrated approach.

“Hunters Woods at Trails Edge promotes Reston founder Bob Simon’s vision of a community where residents can live, work, play and, now, grow older.” says David A. Ross, Partner and President of Atlantic Realty Companies. “We are proud to bring this leading edge amenity to the community, the first of its kind in Reston.”

Hunters Woods at Trails Edge will offer modern multifamily construction with dining rooms, family/living rooms, activity rooms, fitness centers and indoor parking. The facility will also include an arts studio, barber shop, and salon. Advanced security and communication technology will be installed and residents will have access to community-wide Wi-Fi. The facility will add 48 full-time staff positions to the local labor force and other medical service professionals will provide on-site services as required.

The 4.3-acre lot is located across the street from Hunters Woods Village Center. A new bus shelter will be built on the property to access public transit and the facility’s shuttle service will provide transportation to additional transit, medical facilities and shopping centers. Reston’s Turquoise Trail pathway will be lighted, as it passes under Colts Neck Road to Hunters Woods Village Center, where residents have access to Reston Community Center’s expansive program of activities. Six Life-Trail stations designed specifically for senior fitness will be installed along the nature pathway on site. Five outdoor terraces will overlook landscaped grounds, mature woods and nature trails.
